After the huge success of the first symposium in 2018, the second Cambridge Lymphoma Biology International Symposium will again bring together research scientists and clinicians with an interest in the biology of lymphoma and CLL. This two-day, fully in-person symposium will be held in Magdalene College in the heart of Cambridge, UK. It features a programme of expert speakers from across the UK, Europe and North America, as well as selected oral presentations from submitted abstracts. Poster sessions will include flash poster presentations with a prize awarded for best poster. Students and junior researchers may apply for travel bursaries. The registration fee includes a drinks reception and gala dinner in the historic hall of Magdalene College.

Confmed Speakers

Elisa Oriccio  
EPFL, Switzerland

Anthony Letai  
Dana-Faber Cancer Institute, USA

Mark Cragg  
University of Southampton, UK

Alan G. Ramsay  
King’s College, London, UK

Stephen Tait  
University of Glasgow, UK

Andy Finch  
CRUK Barts Centre, London

Dan Hodson
