

Clinician Scientist Opportunities

Junior Clinician Scientist SpR Grade (£33,127 - £58,593) or Clinical Consultant Grade (£77,913 – £105,042) depending on experience.

The Wellcome - MRC Cambridge Stem Cell Institute is a world-leading centre for stem cell research with a mission to transform human health through a deep understanding of stem and progenitor cell biology (<http://www.stemcells.cam.ac.uk>). We now occupy a new state of the art building, the Jeffrey Cheah Biomedical Centre, on the Cambridge Biomedical Campus adjacent to Addenbrooke's Hospital and multiple research institutes (<http://cambridge-biomedical.com>). This has resulted in a fully integrated, vibrant and cohesive stem cell community ideally placed to capitalise on the unique intellectual and clinical surrounding environment. The Institute currently has 29 research groups with over 300 biological, clinical and physical scientists operating across a wide range of tissues and at multiple scales. The Institute is a hub for the wider stem cell community across Cambridge and its neighbouring institutions and has 34 affiliated researchers across 13 University departments.

We are seeking exceptional clinician scientists as Group Leaders to complement our existing programmes and facilitate the translation of advances in stem cell science into novel stem cell 'medicines'. Applications in any area of medicine or surgery are welcomed.

The Institute offers a collegiate environment with excellent core facilities for laboratory-based studies. In addition, our co-location with a major teaching hospital (Addenbrooke's) provides extensive opportunities to pursue patient based studies. Successful candidates will be supported to obtain external personal fellowship and grant support. Interim start-up packages may be available depending on individual circumstances.

Salary Guidelines

- Junior Clinician Scientist SpR Grade - £33,127 - £58,593 p.a.
- Clinical Consultant Grade - £77,913 – 105,042 p.a.

Appointment to Clinical Senior Research Associate is subject to Faculty Board Approval.

Informal enquiries together with a copy of your current CV should be made to Institute Director Prof Tony Green (arg1000@cam.ac.uk)

Equal Opportunities

The University values diversity and is committed to equality of opportunity. The University has a responsibility to ensure that all employees are eligible to live and work in the UK. Benefits include generous maternity / paternity leave, flexible working and funds for returning carers and other family friendly schemes.
